## With Ebnat you are representing your customers' wishes.

Our high quality products set new trends in the household sector. We are constantly ensuring that they are in line with customer requirements, as well as being easy and practical to use.

## What Ebnat makes is Swiss quality.

Our company stands for the Swiss tradition for precision. We have been researching, developing and manufacturing in our specialist areas for decades: household cleaning, dental care and personal hygiene products. Our experiences are continually being converted into the most up-to-date products and innovations.

**modern and clean**

**Ebnat products – quite simply stylish, light and easy.**

The perfectly designed **Optima range** cleans easily and effectively. However, it is not only the new design that makes this range stand out, but also its many improved functions.

Thanks to its special construction, this product range is extremely light, but despite this is very sturdy, making cleaning both easy and effective. Also, the **Optima range** is very environmentally-friendly, as we have dispensed with any unnecessary plastic.

**novel and environmentally-friendly**

environmentally-friendly thanks to its special material-saving design

practically tested round-effect washing-up brush for efficient cleaning of edges

the hand brush and washing-up brush have an effective scraper edge to deal with stubborn dirt

**light and sturdy**

the new handle fits neatly in your hand and despite being very lightweight is very stable

all the products in this range have practical hooks to hang them up

easy to store thanks to our practical, tried and tested «Click system»
