thorough and prophylactic

Oral Care range – for pure and simple care!

The Oral Care range that ensures comprehensive dental cleaning and care. Whether it's for your own teeth or your dentures.

It includes everything that is necessary for thorough, and above all, prophylactic dental hygiene. Cylindrical and conical interdental brushes in four different sizes, a compact tuft brush, dental sticks made of birch wood, an interdental flosser, dental tape that cares for your teeth and gums, a mouth mirror, a supersoft toothbrush and, last but not least, a denture brush for thorough cleaning of your dentures.

sophisticated and easily adaptable

Different sizes help to ensure optimal cleaning of all the spaces between your teeth.

A 2-component grip and a travel grip ensure comfortable handling.

The useful holder keeps the brushes together in one place.

practical and comfortable

The flosser and the dental tape clean the narrowest of spaces between your teeth.

We offer click boxes made of cardboard or plastic.

The practical travel set so that your teeth shine when you're on the move too.
