

clearly and explicitly

With Ebnat you make your name on the market.

Ebnat stands for quality, innovation and customer orientation. This means for you: professional consulting and ideal product presentation in your product range. This means for your customers: clear information through product by packaging and loyalty due to good experiences in use.

Stylish, functional and efficient

At the beginning of every new product stand the customer needs. We also placed high emphasis in the development on our new brush generation on design, functionality and efficiency. All brushes have been developed together with a Swiss university and have been tested on their cleaning performance. Additionally different additional benefits such as a suction cup for children's toothbrushes, flexible brush heads and backs, tongue cleaner as well as a new stamping offer experientable added value for customers and users respectively.

Thanks to Ebnat your customers receive a healthy dentition.

Ebnat is leading with its products for daily oral care and oral hygiene at home and also on the way. Thus your customers receive a healthy dentition. You can find additional products at www.ebnat.ch.

What Ebnat is doing is also always pioneer work.

Ebnat Switzerland stands for quality. For decades we produce toothbrushes and commit ourselves thereby to permanent research and development. By using and testing new materials, forms and technologies we do valuable and internationally recognised pioneer work in the field of dental care.

Charcoal+

Charcoal: for the preservation of naturally white teeth

Charcoal+ promotes with its charcoal bristles the preservation of the natural white tooth colour: micro-carbon particles reliably remove plaque and reinforce the cleaning effect. They gently polish the tooth surface, protect the tooth enamel and brighten discolorations of red wine, tea or tobacco.

The coloured indicator bristles fade when the toothbrush needs to be replaced to always assure a great cleaning performance at any time.

effective and protective

charcoal bristles with rounded ends for in-depth and protective cleaning

perfect cleaning results thanks to the multi-level cut

coloured indicator bristles show when it is time to change the toothbrush

powerful and hygienic

slip-resistant grip with double-sided nubs

ergonomic 2-component grip for a comfortable cleaning movement
