

# Shiny

## Strikingly transparent

The «Shiny» toothbrush has nothing to hide. It is distinguished by best cleaning performance as well as its special look.

The toothbrush's graceful design is extremely comfortable to hold. With «Shiny», attention has also been paid to detail: The transparent material allows a clear view of our Swiss quality processing.

The non-slip handle features a moulded thumb grip with a ribbed design on both sides, providing reliable control.

The multi-layer contour cut of the «Shiny» raises the bar. It achieves optimal cleaning results: suitable for effective massaging of the gums.

The individual logo embossing at the end of the handle on the transparent toothbrush body is a particularly elegant eye-catcher.

Like all Ebnat toothbrushes, the «Shiny» was developed in cooperation with a Swiss university and tested for its cleaning performance.

optimised bristles with round-end tips for gentle cleaning

optimal cleaning performance due to multi-layer contour cut

for effective massaging of gums

non-slip grip with a ribbed design on both sides

easy-to-hold handle for comfortable manoeuvrability

eye-catching space for your own label
