What Ebnat does is exemplary.

Our overall company philosophy stands for traditional Swiss precision combined with innovation. This is a challenge we take on together daily. ebnatdent star and ebnatdent sky are examples of our commitment to this.

With Ebnat, you are a leader as far as your customers are concerned.

We carry out research and development in all of the sectors in which our company is active. As our partner, you lead with us and make the most up-to-date and best products in the dental and oral hygiene sectors available to your customers.

aesthetic and efficient

Ebnat delivers careful dental cleaning.

The *ebnatdent star* is an exemplary, aesthetic toothbrush that is perfect in shape. But it goes beyond just looks. In terms of function and efficiency, it also stands for perfect, careful dental cleaning.

Ebnat's response to the latest discoveries in dental medicine is called the *ebnatdent star*. Ergonomic design thanks to the latest manufacturing methods combined with top quality materials: every detail of this toothbrush has significance and makes a meaningful contribution to daily dental care.

The fine soft-medium *ebnatdent star* toothbrush is colourfully complemented by the *ebnatdent sky* version in all grades of bristle stiffness. The ingenious way in which the around 2'500 bristles are cut ensures thorough, gentle dental care.

perfect in shape and effective

moulded thumb grip for a better hold

ergonomic handle for reliable control

space for your own label

flexible and gentle

one-of-a-kind cut for optimal effectiveness between teeth

whilst the teeth are being cleaned, the edge of the gums is massaged

the angled bristles improve tested efficiency
