

Oeko

Ecological and environmentally-aware

Our wood selection «Oeko» cuts a fine figure. No wonder, because it's all natural and pure.

Using innovative technology, it combines the careful processing of raw materials with traditional Swiss precision.

But there's more to it than that. It has to be natural, practical, robust and efficient. Therefore, in the «Oeko» Line, we offer a high-quality range of brushes, brooms, scrubbing-brushes and wipers for all cleaning jobs.

The materials we use to produce this range are natural and pure: sturdy, untreated, FSC®-certified Swiss beech-wood with the best bristle materials, such as rice, plant fibres, coir and pure horsehair.

With the «Oeko»-Line, you can offer ecologically-minded customers the right products and do good business.

FSC®-certified Swiss beechwood

natural bristle materials, such as rice, plant fibres, coir or pure horsehair
