

# Star&Sky

## Perfectly shaped and effective

The «Star» is an exemplary, aesthetic toothbrush that is perfect in shape. But it goes beyond just looks. In terms of function and efficiency, it also stands for perfect, careful dental cleaning.

Ergonomic design thanks to the latest manufacturing methods combined with top quality materials: every detail of this toothbrush has significance and makes a meaningful contribution to daily dental care.

The ingenious multi-level cut of approx. 2500 end-rounded bristles ensures a thorough and at the same time gentle

brushing experience. It cleans optimally, even in the interdental spaces and enables an effective gum massage.

In addition to the identical advantages of the «Star» toothbrush, the opaque «Sky» version offers a colourful addition in soft, medium and hard.

Like all Ebnat toothbrushes, the «Star&Sky» was developed in cooperation with a Swiss university and tested for its cleaning performance.

optimum cleaning performance thanks to multi-level cut

additional effective gum massage effective

optimised bristles with round end for gentle cleaning

moulded thumb grip for a better hold

ergonomic handle for reliable control

space for your own label
